Regarding the
construction of a
bhuttram and
a musafarkhana
at Chikmagalur.

Nagar Division Comrs
docket No 529/116 of the 18th
September 76.

In his Proceedings
of the 25th April last. No 677/101
the Chief Commissioner
sanctioned the construction
of a Hindu Chattram at
Chikmagalur at
a cost of Rs. 4624, to be
provided from the following
sources: —

I. By amount of subscription paid by
the townspeople . . . . . Rs. 2915.
II. By amount available from L. F. G. out
of the sum of Rs 4000 sanctioned in
Pro: No 5809/96 of the 20th Decr. 1874 — Rs. 1345.
III. Additional grant sanctioned from
Local Funds Grnt of 1876-77 . . . Rs. 382
Total Rs. 4624

2. With reference to
the above quoted Proceedings
the Dy. Comr of Kadur
reports[x] that the work which
has been given out on con-
tract is progressing, and
that, as the estimate ~~was~~
had not been sanctioned

[x] in his letter to Comnr.
No. 386/73 d/6th Septr 76.

when the Budget for 1876-77 was prepared, the necessary provision for the current year's Expenditure was not made in it. Mr. Krishna Rau therefor requests permission to spend the amount of subscription which has already been realised (Rs 2956) during the current official year, and the Comr. recommends that the permission applied for may be granted.

3. As the amount of subscription is reported to have been duly realised, the Dy. Comr. may be authorised to spend it during the current year.

4. The amount of subscription promised by the townspeople for the Chattram in question is put down at Rs 2976 in the list which accompanied the Comr's letter No. 58/18 of the 13th May 73, whereas in para 2 of the

3

Dy. Commrs letter of 17th Decr. 1875 forming an enclosure to the Commrs No 560/124 of the 27th idem, the amount was stated to be Rs 2915. The latter figure (Rs 2915) was adopted in the Proceedings of 25th April last, but it will be seen from the Dy Commrs letter ~~above~~ recent under reference, that the subscriptions realized amount to Rs 2950, or Rs 35 more. If this be the case, the amount of the Government grant sanctioned in Pro: of 25th April 76 may be reduced from Rs. 3824 to Rs. 3489. But before making this correction, it would be well to point out the abovementioned discrepancy to the Commrs and ascertain from him the amount of subscriptions actually collected & credited to the Municipality. Pro: may issue

The discrepancy is not likely to affect the amount of Government grant, but it will be as well to point it out to the Dy Commr.

If the Collector does not succeed in collecting the whole amount of subscriptions, the balance will have to be met from Municipal funds.

9/10

drafted 11/10

6.10.76

5. The foregoing orders were communicated to the Comm^r. in Proceedings No. $\frac{6942}{401}$ of 11^th. October 76.

6. It would appear from the Dy. Comm^rs letter No. $\frac{748}{216}$ of 31^st. Jan^y. 77, copy of which is enclosed in the Comm^rs No $\frac{1032}{255}$ of 13^th. February 77 herewith submitted, that, on the dismantling of the old Taluk Cutcherry, which was ordered to be used for the new Hindu Chattram certain additions and alterations in the Estimate sanctioned in the C. Cs Pro: No. 677-10 of 25^th. April 76, were found to be necessary. A revised Estimate, amounting to Rs. 5369, has accordingly been prepared by the Dy Comm^r. and is now submitted for sanction

7. The items which

5

(i) Getting rid of the bends in the Enclosure walls.
(ii) Erecting substantial walls to block No 4.
(iii) Laying foundation of block No 3 & Compound wall.
(iv) Constructing a small Karanjee cistern.

have been added to the old Estimate noted in the margin. The Executive Engineer of the Hassan-Kadur Dn. to whom the revised Estimate seems to have been sent by the Dy Com. for expression of opinion considers the items Nos (i), (ii) & (iii) to be necessary As regards the Karanjee cistern, he expresses a doubt whether it will be at all useful to the travellers as it will be supplied with water entirely unfit for drinking purposes, and as a cistern will be constructed close to the Chattram on the execution of the Chik-magalur water-supply project - Mr. Clift also suggests that only the foundations of Block No 2 be built for the present leaving the superstructure

A well may be sunk if convenient.
GPT

-structure for the future, unless additional subscriptions are col-lected from the inha-bitants — The Chief Inquieer who was con-sulted when the old Estimate was sanctioned, has also expressed his opinion that Blocks Nos. 1 & 2 appear to be wholly unnecessary

8. As regards the finan cial details of the work — the revised estimate amounts to Rs ——— 5369

Deduct original sanction:—
Contributions by townspeople (Vide Pro: 9/14 - 10 · 76). — Rs 2950
Grant-in-aid from the Local Funds Genl, reduced as directed in para 3 of the above order — Rs. 1094

4,644

Balance req. to make up the amount of the revised Estimate Rs. 725

9. To meet this the Dy Comm. reports that an additional subscription of Rs. 315 has been collected from the inhabitants and solicits that the balance of Rs. 410 may

+ Vide his docket No. 481, 9/29 · 2 · 76.
This view does not appea to have been communi cated to the Town

Taking the sanctioned Grant-in-aid from L. F. Genl at Rs. 1,729, the Dy. Comr calcu -lates the amt now req. to be paid from that fund at Rs. 385. This is an Error in

be sanctioned as a grant-in-aid from the L. F. General He also requests permission to spend the amount of the additional subscriptions (Rs 315, by the end of the current official year.

10. Before passing final orders, I would suggest that the revised Estimate be referred to the Chief Engineer. P.W. for opinion on the points raised by Mr. Clift, & with advertance to his docket No 481 of 29th Febry 76 If the cost of the work can be reduced by omitting some of the unnecessary items, there will be no necessity for an additional grant from the Local Funds General

Reg 25/1/76 Reptd 31/1/76.

Chairman Mun. Commissioner
Chittagong 17th Dec 78

To

The Commissioner Rajar Division

Sir

I have the honor to submit herewith an Estimate and Plan prepared by the Assistant Surveyor under the kind Supervision of the Executive Engineer for the Construction of a Hindu Moosafurkhana at Chittagong on the Site of the old Talook Cutchery.

2- It will be seen from the Correspondence marginally noted that the Amount of private Subscription for this and the Mahomedan Moosafurkhana which is already under construction was Rs 4025 and the grant from Government to Supplement the same Rs 4000, making in all Rs 8025. Out of this Rs 3765 have been sanctioned for the Mahomedan Moosafurkhana leaving Rs 4260 available for the Hindu one but the amount

Chief Commissioner's Proceedings No 6269-85 dated 29th Nov 1878

of the present Estimate which was fixed by the Executive Engineer at the lowest possible figure consistent with the sufficiency and strength of the building is Rs 4580, and this too without allowing anything for the cost of the old material which will be used up. In looking into details of the Subscribers it will be seen the amount subscribed for the Hindu Mussalmana was Rs 2915 and for the Mahomedan Institution Rs 1110. But the latter has had devoted till Rs 2655 of the Government grant, or more than double the amount of contribution while the Hindu Mussalmanas only Rs 1345 or less than half the subscription placed at its disposal.

Hindus by Subs: 2915
2655-1345. 1310
4260
Extra- 4644
384

3. The Chief Commissioner has been pleased to sanction in his letter No 4754 dated 1st October 1874 to Commissioner the grant of the Site of the old Talook

Cutcherry for the Chuttra Establishment
of the estimated cost of the materials
and the Executive Engineer thinks
(vide his report annexed to the Estimate)
that it could hardly worth more than
800 Rupees.

4. I would therefore venture to solicit
the favor of your moving the Chief
Commissioner to increase the Govern=
ment aid by a further money grant
of Rs 320 from Local Funds (general
and of the old materials free of cost.

5. These additional concessions will
still be a little short of the amount
subscribed by the people, and the value
of the old materials will but slightly
exceed that of the old building made
over to the Mahomedan Moosafir=
khana beside the site.

I have the honor to be
Sir
Your most obedient
humble Servant

The Commissioner
Nagar Div.

Sir,

In submitting herewith for sanction the Revised Estimate and Plan for constructing a Kindu chuttrum at Chikmunglur amounting to Rs 5,369 together with a copy of the Hassan Kadur Division Executive Engineer Memo No 1934/696 dated 14th Instno, I have the honour to state that the original Estimate was sanctioned for Rs 4,644 of which Rs 2,915 were raised by local subscriptions and the balance Rs 1,729 was met by a grant-in-aid from the local Funds general (Vide chief Commrs Proceedings No 677/10 of 25th April 1876). Unforseen additions and alterations having been found necessary on the dismantling of the old building as was seen by yourself on the occasion of your last visit to Chikmunglur, the present Estimate has been drawn up.

2 The financial details as per revised Estimate are as follow:-

Total amount of the revised Estimate Rs 5,369

Deductions

Original subscription Rs 2,915		
Additional subscription including Rs 35 already notified	350	
		3265
Balance Rs		2104
Amount of original sanction		1729
Difference between original & Revised Estimates		375

3- I request you will be so good as to obtain the Chief Commrs sanction for a grant of Rs 375 from Local Funds General and also for expending Rs 350 the amount of additional subscription by the end of the current official year, minus Rs 35 already sanctioned by the Chief Commissioner in his Proceedings No 6942/401 dated 14th October 1876.

4- In conclusion I beg to add that the total amount of subscription exceeds the government grant by Rs 1161.

I have the honor &c

Sir

Subject

His No 1327/166 dated 11th Instant forwarding a revised Estimate with plan of the Chikmagalur Hindu Chuttrum and requesting an expression of opinion on the same.

In reply to the above has the honor to inform

the Deputy Commissr that the Executive Engineer considers that getting rid of the bends in the Enclosure walls is certainly an advantage.

The falling down of the old walls in Block No 4 (the old Salt Cutcherry) was to be expected. The tiles were taken off during the monsoon and it was never supposed that unburned bricks could stand the rain.

The necessity for foundations in No 3 was manifest as soon as the old unburned walls were dismantled but not before.

With regard to the Tarangie cistern the water supplied will be entirely unfit for drinking purposes and the Executive Engineer is doubtful if it be advisable to supply any water which is unfit for drinking. The water supply project if carried out provides for a cistern close to the Cluttrum. As the estimate now so greatly exceeds what was originally provided suggests that the foundations of No 2 be built and the superstructure and roof be not put in hand for the present.

Unless it is understood additional subscriptions have been received from some of the Inamdaad Gorwdas.
